web-Hash Browns

twist, lick, dunk and trail

opening the link web.bbctf.fluxus.co.in:1004 , we get a site like this

You Have Been Fooled

the site had a cookie named garlic:cmztpaurxxnoqz3p2on73msbohg5sk74l2fxnxp27gky6cdjqzqq6nad , it looks odd.
At first i thought it was encrypted and tried to decrypt it ,but i was not able to find anything.

After a while BBCTF had released a hint for this challenge and the hint was the logo of tor browser.

So , figured that cookie would be an onion site url and quickly opened the following url in tor browser.

URL: cmztpaurxxnoqz3p2on73msbohg5sk74l2fxnxp27gky6cdjqzqq6nad.onion

After visiting the url , i checked the source code of the site and the flag was in the source code.

◁ ▷ C   🔖   ⚠ Not secure | view-source:**cmztpaurxonoqz3p2on73msbohg5sk74l2fxnxp27gky6cdjqzqq6nad**.onion

Line wrap ☐

```
1  <script>console.log("flag{Y0U_H4V3_B33N_W4RN3D}")</script>
2  <html>
3  <body>
4  Null Byte
5  </body>
6  </html>
7
```

FLAG: flag{Y0U_H4V3_B33N_W4RN3D}
